GRANITEVILLE.

Special for Thanksgiving at the Granite theatre, "The Battle of Waterloo" in five parts. Matinee at 2:30. Evening show at 7. Admission, 10c to all—adv.

EAT LESS AND TAKE SALTS FOR KIDNEYS

Take a Glass of Salts If Your Back Hurts or Bladder Bothers.

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health. When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.—Adv.

FRANK E. LANGLEY, Publisher

Venezuela has declared war on Bulgaria; but the declaration won't go far until it represents more than it does at present.

It is no longer the American boy's ambition to be president but to become the manufacturer of an automobile and then have it publicly known that one has taken out \$1,750,000 life insurance.

LEARNING HOW TO CARE FOR SOLDIERS.

The United States military department learned its lesson in 1898. In that year the department sent 147,795 regular and volunteer troops to war against Spain, and among that number there developed 29,926 cases of typhoid fever, with 2,192 deaths in eight months. It was a terrible record of unpreparedness against disease. In contrast to that record, let it be stated that the government sent 170,000 regular and National Guard troops either into Mexico or to the boundary last spring, and from May 1 to Oct. 18 there were only 24 cases of typhoid and from those cases no deaths resulted. In fact, there were only 121 fatalities from all causes, of which 61 were due to disease, the remainder being due to external causes such as the handling of firearms, etc. To carry the 1898 and 1916 contrast still further, it should be stated that of the 61 deaths due to disease only 17 were the result of acute infectious diseases. This comparative freedom from infectious disease is all the more remarkable when it is considered that the troops were mobilized in a warm climate during the hottest months of the year, when infectious diseases might be expected to break out, if ever. Despite the weather handicaps, the disease problem was reduced to a minimum and all but eliminated. The Vermont troops had comparatively little sickness and only two deaths, as already stated in these columns, one of the deaths being due to external cause and the other to disease, although not of the contagious sort, it is understood. The Vermont troop conditions were typical of the entire army in the long period of encampment from May 1 to Oct. 18 and, no doubt, of the period after the latter date because the climatic influences have been more favorable to rugged health of the soldiers than during the hot summer. Therefore, it may be stated that the mobilization of the troops was of tremendous benefit as an exemplification of the improved sanitary and health conditions arranged by the war department; it demonstrated that the United States government has learned how to take care of its soldiers.

WATERBURY

New Maple Syrup on Snow for Thanksgiving at H. P. Turner's.

H. P. Turner of South Duxbury tapped five maple trees and reported quite a run of sap. Mr. Turner syruped it yesterday and is planning to have sugar on snow for Thanksgiving.

The Congregational church was well filled last evening when, under the auspices of the ladies' union, Miss Marion Hertha Clarke impersonated "Daddy Long Legs." Miss Clarke was all that the press notices have said of her and gave the audience an evening of great enjoyment. The musical numbers were by the Cleaves' orchestra of Montpelier, which was greatly appreciated.

The young child of Mr. and Mrs. Thomas Blackford has returned from the hospital.

Supt. Darrow will spend Thanksgiving with relatives in Middlebury.

Eugene Magnus and Walter Scanlon, with their families, are occupying the double tenement on South Main street, which has been recently completed, owned by Mr. and Mrs. B. R. Demeritt.

Raymond Buzzell spent the week-end at his home in Waitsfield.

The Gleason family are to have their corporation dinner Thanksgiving day at the home of Mrs. James Hatfield.

Judge George H. Dale, who was quite ill last week, continues to improve.

Mrs. J. W. Wilkins, who has been quite ill, is much better.

Rev. William L. Boicourt left Monday for Concord, N. H., where he will spend Thanksgiving with his family at the home of Mrs. Boicourt's mother, Mrs. Inez Huse. He will then go on to Boston to attend the evangelistic services.

Edgar H. Morse is quite ill at his home in Duxbury.

A party of Crossett hill neighbors called upon Mr. and Mrs. Frank Carver Saturday evening to remind them of their fifth wedding anniversary. A chair was left as a token of their friendship.

Among the students who will be home for the Thanksgiving recess are the Misses Barbara Brown, Nellie Swasey and Norma Perkins and Roy LeBaron from the University of Vermont, Mrs. Greta Perkins Evans and Miss Margaret Keefe from the Castleton Normal school, Misses Pauline Bidwell and Annie Dorothy Palmer from Lyndon institute, and Floyd Arkley and Miss Elsie Deavitt from Montpelier seminary.

Miss Maude DeCell is home from Northfield for the Thanksgiving vacation from her work of teaching.

BETHEL

MIDDLESEX

Mrs. A. P. Bigelow returned Saturday from a ten days' visit to friends and relatives in Massachusetts.

Miss Griffin of New Hampshire commenced work Monday as bookkeeper for the Mad River Lumber company.

George Thompson of Bolton was a visitor of his sister, Mrs. Charles Ryan, Monday.

Mrs. F. A. O'Connell, who has been here with her husband the past few weeks, returned to their home in Boston Monday.

The house belonging to the late Mrs. Pauline Lewis has been purchased by A. M. Raydenbow.

Elmer Burnham has moved his family to Marshfield, where he has purchased a farm.

Miss Edna Bragg of Fayston spent Saturday with Mrs. F. J. Eaton.

Mrs. Earl Densmore, who has been at Mary Fletcher hospital for some time, returned home Tuesday.

GRANDMA USED SAGE TEA TO DARKEN HAIR

She Mixed Sulphur with It to Restore Color, Gloss, Youthfulness.

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easy way is to get a 50-cent bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

This preparation is a delightful toilet requisite and is not intended for the cure, mitigation or prevention of disease.—Adv.
